

## Corporate Profile

DESIGN - BUILD - MAINTAIN

[www.ausships.com](http://www.ausships.com)

## Introduction

The Aus Ships Group provides THE Design/ Build/ Maintain solution for the commercial, private and luxury marine industries.

The group has been awarded the Australian Commercial Designer & Manufacturer of the Year multiple times for its excellence in design and construction of commercial vessels.

We are a maritime business built on professionalism, integrity, quality and passion with a focus on performance, safety, efficiency and employee, client and supplier satisfaction.

The Aus Ships group is comprised of three distinct entities aimed at providing a comprehensive products and services portfolio to high quality clients both nationally and globally.

- Aus Yachts Pty Ltd provides; Design, naval architecture, drafting, technical & professional maritime consulting services
- Aus Ships Pty Ltd provides; Shipbuilding, manufacturing, refit, repair & maintenance
- Scimitar Boats Pty Ltd provides; fiberglass & pleasure vessel manufacturing , refit & repair

Aus Yachts, established in 2008, has been providing design and professional consulting services to select clientele in the commercial, luxury and regulatory space.

Aus Ships, established in 2011, has been providing maritime construction solutions for luxury vessels and commercial marine components and in 2014 expanded its team to provide new build construction and major refit capability.

Scimitar Boats, established in 2020, manufactures a range of fiberglass vessels, composite component manufacturing as well as pleasure vessel refit, repair and maintenance services.

The Aus Ships Group is the first shipyard and design studio in Australia to achieve Shipyard Certification with the classification society *Lloyds Register*.

## Mission

To deliver professional, high quality marine solutions to a like-minded client base.

To maintain solid financial performance, client confidence and employee satisfaction through a continued focus on quality, efficiency, safety and integrity.

To support collaboration and development within the industry through active participation in professional associations and a continued commitment to innovation at all levels.

## Facilities

The Aus Ships Group is headquartered within the Rivergate Marina & Shipyard precinct on the of the Brisbane River, in close proximity to Brisbane's domestic and international airports.

This state of the art precinct provides the ultimate in marine infrastructure including 75 & 300 tonne travelifts, fuel wharf and marina which combined with a range of high quality suppliers and maritime contractors provides THE complete marine solution.

The facility includes enclosed construction halls of 700 and 1,000 m<sup>2</sup> and 15,000 m<sup>2</sup> of hardstand space with 24 hour monitored security systems.

The Aus Ships Group's owned facility comprises undercover, enclosed and secure workshops of 2,500 m<sup>2</sup> with design & administration offices of 150 m<sup>2</sup> all outfitted with the latest in equipment including:

- Market leading software programs including Autocad, Rhino 3D, Maxsurf and Bentley
- Large scale 3D printing systems
- Project management and job costing software Workflow Max, Enable HR and Xero
- State of the art welding equipment (pulse, mig, tig, stick)
- Forklifts, scissor lift and working platforms
- Engineering workshop with lathe, drill, press brake, pipebenders and band saws
- Fitout workshop with table saws, cutting equipment and setout tables

The Aus Ships Rivergate Precinct Facility

## Experience

The Aus Ships Group is comprised of industry experts with market leading practical and theoretical knowledge and experience in all facets of design, construction, operations and maintenance of marine vessels and infrastructure.

The team represents the most experienced designers & builders of high speed light craft in Queensland, with all core staff qualified to the highest levels of maritime standards.

The team is complimented by a supplier and sub-contractor network which is based on proven track record, high quality services and a likeminded commitment to client satisfaction, safety and the environment.

## Safety

The Aus Ships Group operates with an enviable safety culture which emanates throughout all levels of the business through its *“Work Safe, Boat Safe, Home Safe”* campaign.

Training of personnel, preventative maintenance of equipment and an awareness no blame culture are pivotal to the excellent safety track record.

Continuous review and consultation on safe work method statements, procedures, policies and permits combined with formal external training programs in first aid, forklift, EWP, confined space, permit writing and internal training ensure the safety culture is maintained throughout.

## Environment

The Group’s *“Zero harm to environment, land or water”* approach continues the safety culture into its commitment to the environment.

Through the active training in pollution and environmental control in work procedures to the recycling practices in office and production spaces – there is a continued commitment to reducing environmental impact.

The Group is committed to *de-carbonization* strategies not only through its innovative and market leading designs utilizing latest technology zero, low and reduced emission systems but also through its manufacturing processes, systems and facilities.

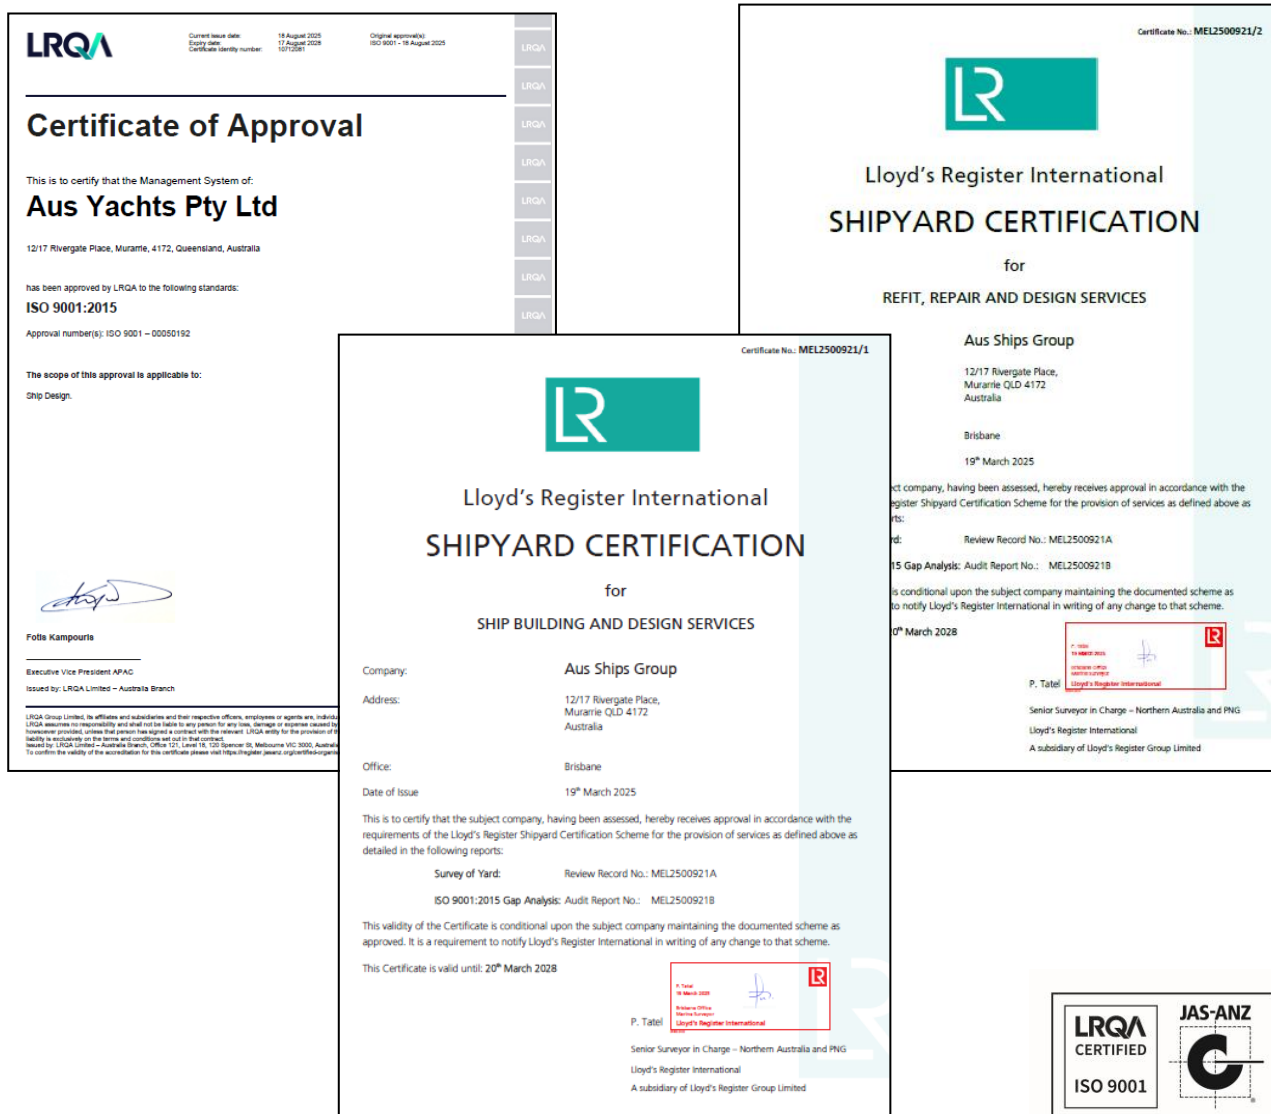

The commitment to leading the de-carbonizing of the maritime sector from the concept design through the manufacturing process, vessel operations and maintenance and end of life disposal will ensure that Australia maintains its competitive advantage into the future.

## Quality

The Aus Ships Group understand the importance of developing and implementing systems to cover all aspects of the design, construction and administration of its projects.

Through the incorporation of industry proven systems such as the project management & job costing system *Workflow Max*, HR management system *Enable HR* and full integration with financial package *Xero* – clients are delivered the highest quality outcome, on time, on budget, every time.

Third party certification of the quality systems, design and production processes has been achieved with Lloyds Register International through their Shipyard Certification program, as well as ISO 9001 compliance through LR QA.

2010	2 x 5.7m Monohulls		- Vessel type: Recreational - Construction: Aluminium - Speed: 40+ knots - Flag: MSQ - Classification: LR SSC G2 - Shipyard: Aus Yachts - Location: Australia - Vessels: <i>Crossfyre</i>  <i>DKP</i>
2008	6 x 38m Catamarans		- Vessel type: Passenger - Construction: Aluminium - Speed: 30+ knots - Flag: UK MCA - Classification: LR SSC G1 - Shipyard: BSC - Location: UK - Vessels: <i>Typhoon, Tornado, Cyclone, Monsoon, Aurora &amp; Meteor</i>
2008	6 x 10m Monohulls		- Vessel type: Patrol

- Construction: Aluminium
- Speed: 50+ knots
- Flag: HKMD Patrol
- Classification: LR SSC G2
- Shipyard: BSC
- Location: Hong Kong
- Vessels: *PV5, PV6, PV7*  
*PV8, PV9, PV10*

2007 2 x 32m Catamarans

- Vessel type: Passenger
- Construction: Aluminium
- Speed: 30+ knots
- Flag: AMSA - USL 1C/ 1D
- Classification: DNV HSLC R3
- Shipyard: BSC
- Location: Australia
- Vessels: *Palm Cat*  
*Maggie Cat*

2006 2 x 18m Catamarans

- Vessel type: Passenger
- Construction: Aluminium
- Speed: 24 knots
- Flag: AMSA - USL 1C/ 1D
- Classification: LR SSC G3
- Shipyard: BSC
- Location: Australia
- Vessels: *Swordfish*  
*Barracuda*

2005 1 x 27m Catamaran

- Vessel type: Passenger
- Construction: Aluminium
- Speed: 28+ knots
- Flag: FIMSA/ MSAF
- Classification: LR SSC G3
- Shipyard: BSC
- Location: Australia
- Vessels: *Yasawa Flyer II*

## The Aus Ships Group Crew

Our crew is comprised of industry and content experts in all key areas, which when combined provide a solid foundation for the continued growth and success of the business.

The full time crew currently includes Management, Design, Technical & admin, Engineering, Fabrication & Welding, Fitout, coatings & composites as well a number of apprentices. The key personnel in the group are detailed below.

**Tommy Ericson** (Director) heads the Aus Ships Group. With a background in Naval Architecture, ship design, operation and regulatory reform he has the experience and capability to co-ordinate and take on the most demanding of maritime projects.

**Tom Ryan** (Technical Manager) is a qualified Naval Architect with over 14 years experience in catamaran design and construction, classification society standards and flag state compliance. Having worked with some of the most respected design houses and shipyards in the world, his expertise and experience provides the group and its clients, highly skilled technical oversight on all projects.

**Rob Mulrine** (Project Manager) is a qualified marine engineer with over 30 years experience in ship repair and fleet operations including new vessel design and construction. As Project Co-ordinator, Rob is responsible for the management and co-ordination of ship repair & refit projects.

**Peggy Bellinger** (Financial Coordinator) has extensive experience in the financial and reporting requirements of a modern shipyard, which combined with formal qualifications in business and accounting provide a solid foundation for the financial expertise of the group.

**Jake Whittle** (Production Foreman) an Australian trained aluminium fabricator with significant experience and expertise in aluminium welding and associated structures, he adds significantly to the boat building expertise of the group providing a proactive approach to all projects. As Production Foreman, Jake is responsible for the resourcing, training and co-ordination of the shipbuilding, refit, repair and manufacturing sectors of the group.

**Ben Lewis** (Project Manager & Leading hand) is a qualified boat builder with years of experience in composite structures and high end interior fitouts which combined with project co-ordination experience provides for a well-rounded asset to the team.

**David Mackinlay** (Scimitar Project Manager) is a qualified boat builder with extensive composites manufacturing experience. David leads the Scimitar new build pleasure vessels and composite component construction.

**Mitchell Todd** (Naval Architect) is a degree qualified naval architect with aluminium shipbuilding and technical sales experience , focused on the development of future mobility and alternate energy solutions for the group.

**Jasmine Willoughby** (Safety Representative) compliments the entire team with a proactive approach to safety across all levels of the business, whilst maintaining a role in the trade team due to her expertise in commercial marine construction.
